

HOW TO KEEP PAYMENT TECHNOLOGY CLEAN

Brought to you by Priority Payments Local

In an effort to avoid the spread of disease, our guide offers tips on how to keep your payment technology clean along with safe cleaning supplies.

Change the Way Customers Pay

Offer contactless payment solutions customers can use to tap payment terminal machines themselves instead of handing you their card to process.

Offer pay-in-advance solutions (such as e|tab Online Ordering), allowing customers to place their order and pay through a website, app, or phone call.

Cleaning Do's and Don'ts

Do

- Clean payment technology frequently.
- Use extra caution when cleaning card readers.
- Prevent moisture from getting into any openings or slots.

Don't

- Spray cleaning products directly onto payment technology.
- Get cleaning products on electrical cords.
- Use cleaning supplies that can harm payment tech.

Safe Cleaning Supplies

Bleach-free
Alcohol-based
Disinfectant Wipes

Card Reader
Cleaning Card
